Photo Selection and Order

Installation and use in Lightroom Classic

1. Unzip the file

Unzip the downloaded zip file. You'll get a folder named “Fotowahl und Reihenfolge.lrplugin”.

2. Open the Plug-in Manager

Open Lightroom Classic and go to File → Plug-in Manager.

3. Click Add

In the Plug-in Manager, click the “Add…” button.

4. Select the folder

Navigate to the unzipped folder “Fotowahl und Reihenfolge.lrplugin” and select it.

5. Done

Click “Done”. The plugin now appears in the menu and is ready to use.

6. Using it

1. In the Library module, select a collection you created for the client
2. In the Library module, at the bottom, “Plug-in Extras” → “Export gallery for client…”
3. Follow the instructions

4. The text file(s) from the client, in the Library module at the bottom under “Plug-in Extras” → “Apply order from client file…”
5. Follow the instructions
